TWO TRAINS CRASH ON C. H. & D. AND PENNSYLVANIA CROSSING

No One is Killed But Many People Have Narrow
Escape --- The C. H. & D. Depot is Now a
Mass of Ruins.

Each Train Crew Blames the Other For the Accident—
The Pennsylvania Engine is Demolished and
Thrown Into the Depot.

LIST OF THE INJURED.

H. J. Killmer, of Cincinnati, bruised slightly.

Miss Elmore, of Xenia, Ohio, bruised about the shoulders.

Mrs. E. S. Herly, of Bloomington, Ohio, bruised about the hips.

J. F. News, of Indianapolis, slightly bruised.

Dr. A. W. Fisher, of Indianapolis, bruised about legs.

Pullman conductor Gambel, cheek bone broken.

Unknown man, bad sprains and bruises.

D. B. Brandon, brakeman on C. H. & D., bones fractured in hand

One of the most serious wrecks which has occurred in this city for years, took place at 9:05 this morning at the Great Central and Pennsylvania crossing, when the Great Central east bound passenger train No. 31, collided with the Pennsylvania local freight No. 270. No one was killed, but the great number of narrow escapes were marvelous.

The two engines ran into each other directly on the crossing of the two railroads, and it seems that the J. M. & I. engine was partly across the Great Central tracks when the accident occurred. The J. M. & I. was forced off the track and into the C. H. & D. depot, tearing that structure into bits of small wood. Both engines were damaged to a great extent, and if the train men had staid in the cabs, they would have been killed instantly. Several passengers were in the Great Central depot, and many of them, when they saw that the accident was going to occur, jumped through the back windows of the building. George Eubank, the local agent for the Great Central railroad company, was in the office, but he was so busy making out train orders, that he did not see what was going to happen. He heard the crash however, and he ran for the back window of the office. He says that the falling timbers fell on his heels as he ran, and he thinks that his escape can scarcely be accounted for. The boiler of the Pennsylvania engine was found in the ticket office, where Mr. Eubank was working, the whole north and west sides of the Great Central depot were demolished, and the whole structure was moved a foot off its foundation.

George F. Moore, of this city, also had a narrow escape from death, as he was in the building when the collision occurred. He did not have time to get through a window, and was struck in the face with some falling timbers, but he was not seriously injured. Mr. and Mrs. Grand Carr and son Forrest, were standing on the platform in front of the waiting room, and they say that they are not able to imagine how it happened that they escaped serious injury. Mrs. Carr had her son by the hand, and when the accident occurred she pulled him by force from under falling wreckage and thus saved the child's life. Several other passengers had similar escapes from serious injury, and it is thought that if they had not escaped through the widow someone would have been killed.

Engineer Keef and Fireman Jecoans, on the Great Central engine did not jump from their positions. The cab of the engine was caved in upon their heads, but both men escaped with only a few bruises. It seems that the engineer was trying to reverse his engine, but the reverse lever lacked four cogs of being thrown on. Engineer Mike Fox and Fireman Palmer on the Pennsylvania freight engine, jumped from the cab when they saw that they could not do anything to avoid the

wreck. They claim that they stopped for the Great Central crossing and that they had given their signal for a clear track, but people who saw the accident, say that both trains did not stop for the crossing as required by law. Each train crew is blaming the other for the wreck, but it is thought by many that both companies are to blame.

As has been stated, no one was seriously injured, but some of the passengers were shaken up and bruised. W. D. Gambel, Pullman conductor, and train conductor Sharkey say that some passengers were thrown from one end of the cars to the other.

The Pullman car, the cafe, and the day coach were not damaged to a great extent, but a few of the seats were broken, and the dishes in the cafe were all thrown in a shattered pile on the floor. The mail car, which was next to the engine, was derailed, but no damage was done to it. None of the freight cars on the Pennsylvania train were damaged much.

Shortly after the wreck had occurred, the engineers and firemen began throwing buckets of water into the fire boes of the engines. This was done to keep the wreckage from taking fire, and thus causing further damage. A wrecking crew arrived from Connersville at 10:15 a. m. with trainmaster Degarnen in charge. Work was begun immediately to clear away the wreckage and a crowd of almost a thousand people witnessed the work. The excitement among the people was very great, and for a time it was thought that a man was buried in the wreck.

At two o'clock this afternoon the scene of the wreck had changed its appearance very much. Three wrecking crews were at work, but the only one which could work effectively, was from Indianapolis. This train was equipped with a large and powerful crane, which was used to lift the engines from the track. The Indianapolis wrecking train was in charge of C. A. Davis.

A wildly spread report was circulated at noon today that a traveling man was standing upon the station platform at the time of the wreck, and was caught under the Pennsylvania engine. This report might be true, but it is not probable that it is. At least the train masters who have charge of the wrecking trains say that they do not think that there is any one under the wreckage. One reason to substantiate this report, is that a grip and coat were found very near the spot where the wreck occurred, and it is thought by some that the owner of these articles stepped out of the depot just as the accident occurred, and that he was caught under one of the engines. This coat and grip may have been left on the platform, however, and the owner may have been in safety.

Over half of the Great Central's depot was cleared away this afternoon, and this work was gone about in very systematic manner. The roof and walls were torn down, and the old building material was laid in one place on the south side of the depot. Workmen were climbing all over the damaged building and the work in all parts of the scene was being carried on by almost a hundred men.

The safe in the ticket office of the depot was knocked from the front to the back of the building by the force of the collision, and other pieces of furniture were hurled about the room.

A temporary telegraph office has been set up in the ladies' waiting room of the station, and George Eubank is sending and receiving messages the same as before the accident occurred. The friends of Mr. Eubank are very glad that he escaped from his perilous position, but they wonder

how he accomplished the feat.

Mike Fox, the engineer on the freight train which was in the wreck, said, "I had stopped my train about four car lengths from the crossing, and I started up again, as I could not see the Great Central train coming, as some houses shut off the view. The engine was crossing the Great Central's tracks at a very low rate of speed, when I glanced up and saw the passenger train right upon us. The fireman and I both jumped to save our lives, as it was too late to avoid the accident." The Great Central flagman at the Sexton street crossing says that the Pennsylvania train did not stop, but others who saw the accident say that it did. It is known that the Great Central train did not stop, but the facts concerning the speed of the Pennsylvania train cannot be learned.

The Great Central passenger trains have been running this afternoon, although they have all been late. The trains get around the wreck by going over the Big Four Y. The regular traffic upon the two railroads will be delayed for hours, as the rails will have to be relaid after the wreckage is cleared away. The Great Central railway company will be forced to build a new railroad depot. Several have said this afternoon that in this way the wreck was a good thing for the improvement of this city, but more conservative people would rather have seen the company build a new waiting station under different necessities than that which now make it necessary for a new structure to be built.

CAME VERY NEAR BEING DROWNED

Former Union County Commissioner and Two Friends
Caught in Deluge.

Sylvanus Cockfair, ex-commissioner of Union county, and Mr. and Mrs. James Carr, of Elwood, had a narrow escape from drowning last night at Ely Creek, Fayette county, by being caught in a deluge of water caused from a cloudburst.

Cockfair was driving a team of horses to a carriage and had been to the train to meet his guests. While fording Ely creek, on the way home, Cockfair heard a roaring sound and saw a wall of water four feet high moving down the creek at great speed. There was no escape and the occupants leaped to a high bank. A short time after the water dashed against the vehicle and turned it over. The horses plunged and broke loose, leaving the carriage and baggage to be carried down stream.

The stream surrounded the little party and all night they waited in vain for an opportunity to escape. Shortly after 1 o'clock this morning the water had subsided sufficiently to allow them to get to a neighboring farm, where they secured shelter.

CAUGHT ON TRACK

Automobile Party is Crushed
by Locomotive at Bennington.

Rutland, Vt., Aug. 15.—Deputy Police Commissioner Harris Lyndley of New York city and Miss Evelyn Willing of Chicago were almost instantly killed at Pikes Crossing, near Bennington, Vt., yesterday afternoon, when a North Branch train on the Rutland railroad struck the automobile in which they were traveling. Miss Willing's nephew, Ambrose Cramer, and the chauffeur, J. Adamson, were thrown out and badly bruised and cut but not seriously injured. The engine was thrown about fifteen feet and the tracks were torn up for 100 feet. The automobile was dashed to pieces and afterward destroyed by fire. Miss Willing and Mr. Lyndley were to have been married next week.

—Mrs. George E. Shelton, of Hot Springs, Ark., is the guest of Uncle Jim Osborne, on West First Street.

—Lawrence Guess, of St. Paul, the new principal of the schools at Milroy is attending Institute and Chautauqua.

THE INQUEST CONTINUES

Coroner Coleman is Still
Taking Testimony in
Cook Murder Case.

Ten Witnesses Examined Yesterday—Other Theories Regarding Cook's Death.

Coroner Will S. Coleman yesterday examined about ten witnesses at the inquest being held regarding the murder of Norman Cook. These were Frank Cameron, Peter Maffett, Sadie Smay, the servant girl, Ezekiel Priest, Ralph Bankert, the fourteen-year-old son, Willie Horr, of Glenwood, who was visiting the Bankert boy at the time of the tragedy, Sylvester K. Bankert, the husband, David Baker, Claude Walker and Frank Hall. One of the witnesses was on the stand for three hours.

Confessing that she fired the six shots that ended Cook's life, Mrs. Anna Bankert is still under arrest, but it is very evident from the way the county authorities are pushing their investigation of the murder, that other theories are being held in regard to Cook's death. No further arrests have been made, however, as yet.

As the investigation is being held behind closed doors, the authorities will not discuss the matter at length.

The revolver and razor are in the hands of the coroner. The end of the barrel on the revolver is bent and dented, showing where the woman struck Cook upon the head with the weapon. The razor has been identified as the property of Mr. Bankert.

How Cook came to have it in his possession is a mystery. The razor is of an old-fashioned pattern with a very thick and broad blade.

Wild and startling rumors have been afloat ever since the murder. A great many of them are being investigated by the coroner and acting prosecutor. One of them was to the effect that Cook had an appointment to meet Mr. Bankert Saturday afternoon at three o'clock. He was in Rushville at that time and he is reported to have met acquaintances in several places and asked whether Mrs. Bankert had come to town. Cook left for the home of Peter Maffett with Frank Cameron. According to the testimony, they arrived at the Maffett home about four o'clock, and Cook, after spending only a few minutes, went to the Bankert home. It is the general belief that he arrived there a few minutes after five o'clock.

Another clew on which the authorities are working, is to the effect that Cook spent a part of Friday night at the Bankert home. It is also learned on reliable authority that in Cook's pocket, when he was killed, was found a photograph of Mrs. Bankert. The Bankerts say he had stolen the photograph. It is also said that four letters, said to have been written by Mrs. Bankert to Cook, were found in Cook's pockets. The letters, it is said, are now in the hands of the authorities. The body of Norman Cook was buried in East Hill cemetery Monday afternoon. No funeral service was held. The body, which had been at Wyatt's undertaking establishment since Sunday morning, when it was brought from the Bankert home, was viewed by a curious crowd numbering hundreds. No relatives of the murdered man came here before he was buried. Farmers living in the vicinity of the Bankert home, who had been among the employees during the harvest season, raised a purse to pay for the lot in the cemetery in which Cook's body is now buried.

Cook once resided at New Castle. The following from the New Castle Courier may be of interest:

"Norman Cook, the victim of Mrs. Bankert, formerly resided in this city and his little daughter, Esther, aged 11 years, is living with her mother and stepfather, Mr. and Mrs. Ed. Johnson, of Bundy avenue. The Cook family was broken up a year or more ago and a divorce was granted in the local court by Judge Morris to Mrs. Cook. She afterwards married Johnson. The daughter was located late Sunday by Marshal Burr, who was

asked to inform her of the tragedy. She will go to Rushville to attend the funeral.

Some of the authorities claim no knowledge of any four letters having been found on Cook's body. One official states that one letter was found in one of the trouser pockets, and the only thing found in the coat was a bunch of grapes.

Coroner Coleman says that the end of the inquest is not in sight. The inquest was not resumed this morning until about ten o'clock, Coroner Coleman having been summoned to the scene of the wreck before the time to convene the inquest. Three witnesses, all neighbors of the Bankert's were examined this morning.

Miss May Bebout is acting as stenographer for the inquest.

Mrs. Bankert's preliminary hearing has been set for Squire Jackson's court tomorrow morning at 9 o'clock, but it is very doubtful whether it will be held, as the inquest will probably not be over by that time. The case in all probability will be continued.

John F. Joyce, who was employed in Mrs. Bankert's defense, has severed his connection with the case. Watson, Tittsworth & Green have been employed to succeed him. Congressman Watson had a long interview with Mrs. Bankert at the jail this morning, and this afternoon he journeyed out to the house where the murder was committed to look things over.

The case, when it comes to trial, promises to be one of the greatest legal battles in the history of the Rush circuit court. The State will put up a strong fight and Prosecutor Kiplinger will employ plenty of good counsel to assist him.

ASKS DIVORCE AND ALIMONY

Mrs. Lida Hamilton Brings Suit
Against Francis M.
Hamilton.

Mrs. Lida M. Hamilton, through her attorney, Douglas Morris, has filed suit for divorce and alimony against Francis M. Hamilton, alleging cruel treatment.

The Hamilton's formerly resided at Mays. Mrs. Hamilton is now residing with her father, J. P. Girty, at Knightstown. Mr. and Mrs. Hamilton were married on June 19th, 1901, in Rush county. They separated on August 4th last.

Mrs. Hamilton claims that Hamilton cursed and struck her. She asks \$7,500 alimony. Hamilton is reported to be worth about \$2,000. He recently sold his 320 acre farm near Mays to William Knecht.

Many Horses Killed.
Vincennes, Ind., Aug. 15.—The report of the Vincennes Garbage Reduction company shows that up to date the company has collected the bodies of forty-seven horses killed by lightning in the storm of last week.

Maimed by His Own Gun.
South Whitley, Ind., Aug. 15.—While hunting squirrels Roy Groves let his gun slip from his grasp while he was sitting on the fence, and in the discharge of the weapon the boy's left arm was shot away.

Auto Causes Trouble.
Connersville, Ind., Aug. 15.—While Mr. and Mrs. John Ludlow were driving, their family horse took fright at an automobile and jumped over a high embankment. Both were perhaps fatally injured.

CHAUTAUQUA IS UNDER WAY

There Was a Good Attendance at Meeting Again
Last Night.

Many Teachers Attend Institute—
Several Interesting Sessions.

The Chautauqua meeting and Teachers' Institute are now well under way at the City Park. Large crowds continue to attend each session and some very interesting and highly entertaining programs are being given.

Last night an audience of six hundred people heard the concert given by the Heaton Sisters. Everyone pronounced it one of the best given in this city in years. Mrs. Effie C. Palmer gave several readings which were of exceedingly high order.

This morning the County Teachers' Institute convened its second session and fully eighty teachers attended. Dr. Hall delivered an able lecture as did Dr. Green. The program is as follows:

8:45—Opening Exercises.
9:00—Lecture, Dr. Hall
9:40—Rest.
9:50—Music.
10:00—Lecture, Green
10:40—Rest.
10:50—Music.
11:00—Lecture, Dr. Hall
1:00—Music.
1:15—Lecture, Green.

This afternoon an audience of some four hundred people heard a fine lecture by Captain James A. Mailley, late Captain in the First Nebraska Infantry, where he served on the Colonel's staff. Captain Mailley's lecture was entitled "The Soldier in History," and it was delivered in that forceful and patriotic manner that appeals to all. The lecture was a masterpiece for its kind and there are many who would be delighted to hear it again.

The Chicago Ladies Quartette furnished the music again this afternoon and Mrs. Palmer gave some very choice readings.

Tonight Senor Ramon Keyes Lala the Philippine author and lecturer will give his celebrated illustrated lecture, "The Philippines and Their People." This is one of the very best numbers on the Chautauqua Program.

Tomorrow morning the Teachers' Institute will hold its third session. There will be lectures by F. H. Green and Dr. Hall and plenty of good music. The Chautauqua program for tomorrow is perhaps the best of the week. The order of events on Wednesday will be as follows:

8:45—Opening Exercises
9:00—Lecture, Hall
9:40—Rest
9:50—Music
10:00—Lecture, Green
10:40—Rest
10:50—Music
11:00—Lecture, Hall
1:00—Music
1:15—Lecture, Green
2:30—Chautauqua Prelude, Heaton Sisters, assisted by Beilharz Co.
3:00—Assembly Lecture, "Day Dreams," by L. B. Wickersham
8:00—"The Hoosier School Master," by Beilharz and wife Impersonators.

Thus far there has been nothing to mar the success nor the pleasantness of the meeting. Five tents have been erected by campers and all are enjoying themselves hugely. The candy, lunch, peanut and lemonade stands are doing a very good business. The weather to day was ideal Chautauqua weather and it is hoped that pleasant weather will continue throughout the week. The attendance tonight promises to be large.

Prof. W. A. Stockinger, has returned home from Chicago University where he has been attending the summer term. Mrs. Stockinger has also returned.

A false alarm was turned in last night from box 37. The fire department made a quick run, but an open alarm box was the only startling thing seen at that place. Police authorities have been notified and an attempt will be made to find the guilty parties.

SALOONIST RELEASED

Laporte Judge Holds Nicholson
Law Provision Annulled
by New Code.

Laporte, Ind., Aug. 15.—Judge Richter, in Laporte circuit court, after hearing arguments in application for release on writ of habeas corpus of Edward Mitchell, Michigan City saloon keeper, sent to jail for thirty days for selling liquor to minors, ordered the defendant's release, saying he was being illegally restrained of his liberty. Mitchell pleaded guilty before City Judge Bower in Michigan City to selling beer to a twelve-year-old boy, whereupon the court fined him \$25 and sent him to jail for thirty days, under the provisions of the Nicholson law. But Judge Richter held that this point of the statute was made inoperative by the new criminal code, which provides only for use in case of conviction of selling liquor to children.

RUSHVILLE 3 GREENSBURG 2

Wagner Adds Another Victory
Over the Famous Red
landers.

E. L. Wagner not to be outdone by McCord, pitched the local team to victory again at Greensburg yesterday by masterly work. Wagner only allowed the Greensburgers four hits. The team made a couple of errors behind Wagner in the seventh inning, which coupled with two hits gave Greensburg two runs. The game was fast and exciting and was witnessed by a good sized crowd. Rushville has made it two straight from Greensburg this week. The two teams are playing again today. Dugan pitches for Rushville and Donnell or Falls for Greensburg. Tomorrow Greensburg comes here for a series of three games. McCord will pitch for Rushville tomorrow and Falls or Donnell for Greensburg.

Score: 1 2 3 4 5 6 7 8 9 R H E

A NEW LAW IS NEEDED

Tax Board Confronted by a
Condition Requiring
Correction.

Indianapolis, Aug. 15.—The third session of the state board of tax commissioners for hearing appeals from assessments made on railroads, interurbans, telegraph, telephone, express and transportation companies, began today. Attorney General Charles W. Miller has rendered an opinion that the law under which private bankers are taxed is unconstitutional. The state board asked several days ago to have the law construed, as former Attorney generals W. L. Ketcham and W. L. Taylor rendered conflicting opinions. The law provides that the amount of the deposits shall be deducted from the credits, bills and accounts receivable and other assets and tax paid on the difference. Mr. Miller holds that unincorporated banks should be taxed the same as ordinary merchants and that the rule laid down by the law is not constitutional. This is in line with Mr. Ketcham's ruling. Under the present conditions the state in many instances is deprived of revenues it should receive in taxation of the private banks, as the latter are able to show that they have no surplus. It is not known what action the state board will take, but it is probable that a new law will be framed and presented to the next session of the legislature.

"The crowned heads of Europe are all afraid of their cooks," says a magazine writer. So are the uncrowned heads in this country.

Chamberlain's COLIC, CHOLERA AND Diarrhea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take. Every man of a family should keep this remedy in his home. Buy it now. It may save life.

In anticipation of a peace settlement between Russia and Japan the money changes of the world are getting busy in arranging for the financial end—that is for the payment of a war indemnity by Russia—which everybody expects she will have to do. A nation which has 125,000,000 inhabitants and which controls an eighth or a tenth of the land surface of the globe, as Russia does, is a country which will have to be reckoned with in the world's affairs. Russia can get all the money which she needs to pay any sort of indemnity which Japan exacts. For peace purposes the world's purse is open to her, but money for a continuation of the war would be hard for her to get. France's payment of \$1,000,000,000 to Germany did not disturb the world's financial balance. The monetary machinery of the world is more delicately adjusted in 1905 than it was in 1871, but it has also resources which had not been devised at that time, and it is capable of resisting strains and shocks which would have wrecked it then. The money which Russia transfers to Japan will probably be so cautiously distributed that it will not cause any jar in the market. The amount of funds available for any sort of transaction which has the sanction of the leading financiers was never so large as it is at the present day. Notwithstanding the grimaces and the protests which may come from the losing side, a settlement is in sight, and the world, especially the United States, will rejoice thereat. As a peacemaker the American republic has an easy pre-eminence among the world's nations.

The recent crash between the State of Louisiana and the national government in an effort to check the ravages of yellow fever, shows plainly that the old question of State sovereignty is in its last ditch. The State of Louisiana and the city of New Orleans were glad after all that they had an Uncle Samuel to fall back on, for the yellow fever situation was getting too big for them to handle. In such a situation State sovereignty and local pride have to take a back seat. The conditions have changed since the old days when state rights was a religion in certain parts of the country. John Taylor, of Caroline, or John C. Calhoun had foreseen Louisiana's surrender of her functions to the federal authority they would have wished they had never been born. Omniscient as was that old particularist Thomas Jefferson, some things have turned up since his time which were not dreamed of in his philosophy. State sovereignty has been getting some hard knocks in recent years, but its own section is not doing much lamenting on that account. The states will always be able to hang on to all the rights which they need. This is a great and progressive country. What little usefulness state ascendancy in its ancient phase ever had, if it had any, has been lost, and the idea itself has to go the way of all defunct and discredited things. At one time and another it made something of a stir in this country, but its day is over. State sovereignty's funeral is taking place in New Orleans, and it has very few mourners.

ON THE WING

Former Governor Durbin Having Good Time in Europe.

Indianapolis, Aug. 15.—Friends of former Governor W. T. Durbin are receiving letters from him postmarked from different places of interest in England. He and Mrs. Durbin have been touring the British Isles for several weeks and will be joined in London within a few days by their son Fletcher, who will remain abroad with them until fall. It is understood that Colonel Durbin and wife will spend several months in Europe before returning to this country, when they will reopen their former home at Anderson. The colonel has no intention of quitting Indiana, although it was rumored after his retirement from office that he had accepted a business proposition in the South.

Arrangements are being made to move the headquarters of the Indianapolis revenue district from Lawrenceburg to this city within the next few days. Frank Smith of Brookville, who was chief clerk under Ambrose Nowlin during his eight years as collector, was here today conferring with Elam Neal, Nowlin's successor, and he said he thought the new headquarters will be established by September. Smith has been appointed by Neal as his chief deputy. He is regarded as a capable man for the position, having had ample opportunity to learn the red tape connected with it. Mr. Nowlin, who retired from office the first of July, is now organizing a bank at Lawrenceburg and will remain in business there. The change of headquarters to Indianapolis is not only desirable because of the elegant rooms the revenue officers will have in the new federal building, but because this city is nearly in the center of the district.

The Indiana railway commission went to Terre Haute this morning to hear testimony in charges made by hay shippers along the Evansville & Terre Haute railroad between Evansville and Terre Haute, that one firm at Terre Haute is receiving a rebate. Charges have also been made by shippers that the freight rates are too high. The commission is now considering a number of matters of importance, and will render decisions within a few days. Union B. Hunt, chairman of the commission, said today that an agreed case will be submitted to the Marion county superior court in September to determine whether or not the commission, as Governor Hanly holds, may prohibit the issuance of passes to public officials.

The pay-roll of the state for the recent camp of instruction of the Indiana national guard at Fort Benjamin Harrison was completed yesterday afternoon and sent out today by Adjutant General Ward. The state's share in pay for the soldiers is \$17,343. The federal government pays the commissioned officers, the transportation and subsistence bills in addition to an allowance of 53 cents a day to each soldier, which will bring the total cost of the encampment to over \$40,000.

CLOSER RELATIONS

Between Church and Workingmen Are Sought.

Chicago, Aug. 15.—On the Sunday before Labor Day, which occurs Sept. 3, seven thousand Presbyterian ministers throughout the United States will preach to the working classes on some phase of the labor question. This in accordance with a plan outlined by the department of church and labor recently organized by the Presbyterian church. Superintendent Charles Stelzle, the head of this department, who has his headquarters in Chicago, has sent out an appeal to the ministers of the Presbyterian faith outlining the purposes of the new department, which is to encourage a more helpful relationship between the workingman and the church and requested them to preach on the labor question on the Sunday before Labor Day.

Partially Fulfilled Threat.

Berea, O., Aug. 15.—After many threats to take the lives of his wife and nine children, Adam Boyer, an engineer for the Cleveland Stone company, shot and killed his wife and shot at, but missed his three eldest children on the street here. Although pursued by his eight-year-old son Frank, and seized by a neighbor whom he frightened away with his revolver, Boyer escaped.

Lafayette at Lafayette.

Lafayette, Ind., Aug. 15.—Robert Lafollette, governor of Wisconsin, delivered an address at the Chautauqua yesterday afternoon. Governor Lafollette was presented to the assemblage by Governor J. Frank Hanly and spoke on "The Improvement in Political Conditions in the United States."

Beaten Into Insensibility.

Evansville, Ind., Aug. 15.—Patrolman Charles A. Neuhling was attacked here in the Evansville & Terre Haute yards and beaten into insensibility, and is in a serious condition. Robert Peters and James Toom are under arrest.

Arrived at Caracas.

Caracas, Venezuela, Aug. 15.—Wm. L. Russell, the newly appointed American minister to Venezuela, and ex-Judge W. J. Calhoun, whom President Roosevelt appointed special commissioner to Venezuela, have arrived here.

Harbin, Aug. 15.—Among the soldiers medically treated here 1,200 were found to be self-mutilated on the first finger of the right hand.

DOWN TO BUSINESS

Peace Envoys Are Proceeding Rapidly With the Matter in Hand.

CRISIS STILL TO COME

The Two Articles of the Japanese Demand Which Russia Spurned Have Not Yet Been Reached

Three Articles Out of the Twelve Have Been Agreed to by Witte and Rosen.

Portsmouth, N. H., Aug. 15.—Although very rapid progress was made with the peace negotiations yesterday, three of the twelve articles which constitute the Japanese conditions of peace having been agreed to by Mr. Witte and Baron Rosen on behalf of Russia, neither of the two articles to which Mr. Witte in his reply returned an absolute negative was reached. The crisis, therefore, is still to come. It may be reached today, as the cession of Sakhalin comes fifth in the list. The three "articles," as they are officially designated in the brief communications authorized to be given to the press, which were disposed of yesterday, are in substance as follows:

First—Russia's recognition of Japan's "preponderating influence" and special position in Korea, which Russia henceforth agrees is outside of her sphere of influence, Japan binding herself to recognize the suzerainty of the reigning family, but with the right to give advice and assistance to improve to civil administration of the empire.

Second—Mutual obligation to evacuate Manchuria, each to surrender all special privileges in that province, mutual obligation to respect the "territorial integrity" of China and to maintain the principle of equal opportunity for the commerce and industry of all nations in that province (open door).

Third—The cession to China of the Chinese Eastern railroad from Harbin southward.

There never was any question about the acceptance on the part of Mr. Witte of these "articles," the first two covering in more emphatic form the contentions of Japan in the diplomatic struggle which preceded hostilities. The third is a natural consequence of the result of war. The cession of the railroad, the building of which cost Russia an immense sum, estimated by some as between \$100,000,000 and \$200,000,000, is to China. Japan and China, therefore, will arrange between themselves the method by which the former is to be remunerated and through this financial operation Japan might have a very considerable portion of her claim for the "expenses of the war" liquidated. The railroad is ostensibly the property of Russian-Chinese bank, although built by government money advanced through the bank and since its completion operated, managed and policed by the Russian government. Japan cannot take the railroad herself. To place herself in Russia's shoes regarding the railroad would be militarily to control the destinies of the three provinces of Manchuria which she has promised to return to China. But Japan is entitled to reimbursement for the expense to which she has been put in restoring the railroad below the present position of L'nevitch's army, rebuilding the bridges and narrowing the gauge. If China could not find the money some other power or powers might do so and the road would become hypothecated to the powers which advanced the money, as other Chinese roads are to those which advanced the money for their construction.

It was Mr. Witte himself who organized the Russo-Chinese bank in 1895 and who has always been considered the real organizer of the Chinese Eastern company. Mr. Berg, the attorney of the Russo-Chinese bank, which owns practically all, if not all, of the shares of the road, is attached to the Russian mission.

Both sessions of the conference yesterday are described as "amicable." There were several slight jars, but none of them serious. The plenipotentiaries are showing admirable temper. The change in the weather may be partially responsible for the serenity manifested at the conference table, but it would be perhaps too much to say that the fate of such a gigantic negotiation had been affected by a few degrees of temperature and a few thousand mosquitoes.

Today in the ordinary course of proceedings the first great stumbling block to a treaty of peace should be reached, as after Port Arthur and the leases of Liaotung, which are included in Article 5 and which Mr. Witte is undoubtedly prepared with slight modifications to accept, comes Article 6, the cession of Sakhalin. But it is by no means certain that when this obstacle is reached it will not be postponed until all the articles upon which agreement is easy or possible are disposed of. If this course is followed, it will indicate a disposition to put off the real struggle to the very last, and the longer the conference endures the brighter the prospects of a treaty are likely to become. "Every day they sit," said a very high authority, "increases the chances of peace."

YELLOW FEVER SITUATION

Total Cases Reported Aggregate More Than a Thousand.

New Orleans, Aug. 15.—New cases yesterday, 55; total to date, 1,018; deaths yesterday, 12; total to date, 166.

Partly as a result of left-over cases from Sunday and partly from the fact that the inspectors were able to put in a full day's work, there was again a large number of cases of yellow fever reported yesterday, the bulk of them as before coming from below Canal street. That section is now very generally infected, though there are some areas of it which have thus far entirely escaped. Slow progress is made by the disease in what is known as the American portion of the city, and with few exceptions the cases there are isolated. The health authorities are still unable to assert whether the high-water mark in the matter of daily aggregate cases has been reached, and they consider it too early to hazard a guess at the extent of the victory which they expect to win, but with a large proportion of the cases responding to good treatment, they do not believe there is any chance that the disease can approach the proportion of any of the serious epidemics of the past, though the population of New Orleans is almost double what it was in 1878. Some friction has existed in scattered quarters where local doctors have resented the activity of inspectors in cases which they have themselves reported, but Dr. White is displaying great tact in handling the situation; is constantly smoothing out the wrinkles, and hopes within a few days to have so perfect a working system that cause will no longer exist for dissatisfaction.

ANOTHER INVESTIGATION

Official Scrutiny Being Given the Revenue Service.

Washington, Aug. 15.—There is said to have been a big shake-up among the revenue agents of the internal revenue service, but just how far it has gone is a matter of speculation. It is stated, however, that four well-known revenue agents have been asked for their resignations and at least two of the four have come here for a personal conference with Commissioner Yerkes of the internal revenue bureau. These are Captain Charles H. Ingram, in charge of New England works, stationed at Boston, and C. H. Burg, who has had a section of the Southwest under his charge and has been located in Texas. The names of the other two agents could not be learned. Commissioner Yerkes would not discuss the matter. Those in position to know say that Commissioner Yerkes had personally been watching the work of the revenue agents, who are really the secret investigating officials of the revenue bureau, and has concluded that some of them have not been doing their duty in detecting some of the things going on.

Serious Charges Made.

Topeka, Kan., Aug. 15.—Charges of irregularities in the management of the state industrial school for boys have been filed with the board of control here by Dr. Eva Harding, a Topeka physician, against H. W. Charles, the superintendent. It is charged that Charles confiscated liquor sent to the food sufferers in 1903; that "brass knucks" have been used on the boys by the officers of the institution; that one officer has been drawing two salaries; that three officers were drunkards and that the boys are underfed.

Open Switch Causes Trouble.

Portsmouth, O., Aug. 15.—Train No. 2 on the east end of the Cincinnati division of the Chesapeake & Ohio road ran into an open switch at Garrison, Ky., across the Ohio river, striking the rear end of a mixed passenger train on the siding, wrecking the engine and damaging the passenger equipment. Engineer Snedeger of the passenger train was seriously hurt and Conductor Fish of the mixed train was also injured. No passengers were hurt.

In Suffering Poland.

Warsaw, Aug. 15.—Governor General Maximovitch has sentenced Henryk Sienkiewicz, the Polish novelist, to detention for an indeterminate period in his residence for signing and publishing papers in protest against the Russification of schools in Poland. A number of other notables were similarly punished.

Obituary of Timothy O'Keefe.

In the death of Mr. O'Keefe our little village loses one of her oldest and best known citizens. He was born in the County Cork, Ireland, February 21st, 1828, died August 11, 1905, being at the time of his death 77 years, 5 months and 21 days of age.

In 1849 he came to America and some years he settled here in this town, where he has lived for about 32 years.

In the war of the Rebellion he enlisted as a union soldier in Company A. of the 16th Ind. and was with that company for one year. He enlisted the second time and served 3 years in Company B., 16th Ind., fighting and campaigning during his term of service.

He was always considered by his comrades as a true and brave soldier. Mr. O'Keefe was twice married.

In his first marriage six children were born into the home, of which two are dead, Lizzie O'Keefe and Mrs. Mary Cook, and the surviving four, Mrs. Maggie Morris, of Indianapolis, Mrs. Wm. Clifton, Bentonville, D. W. O'Keefe, of St. Louis Mo., and John O'Keefe, Bentonville, were present at the last sad rites. In 1875 Mr. O'Keefe was united in marriage to Mrs. Sarah Stewart to whom was born Wm. L. O'Keefe, College Corner, O., Miss Florence O'Keefe and Frank

O'Keefe, of Glenwood and Fred his step son are here to pay the last sad respects to the deceased father.

During the latter part of his life Mr. O'Keefe was called upon to endure much physical suffering, but now he is free from all earth's pains, sickness and sorrows and has made his entry into the unseen world from whence no traveler has e'er returned.

The relatives have the sincere sympathy of the whole community.

Rev. Rob't Cook the pastor of the U. P. church conducted the funeral services which took place from the residence on Durbin street.

Quite a large concourse of people were present to pay the respect to the deceased.

GERM DISEASES OF SUMMER

No one Need Fear Sickness if Mi-o-na is Used.

It is the person with the weak stomach who first falls victim to the germ disease of summer.

People with strong stomachs and natural digestion are ordinarily not subject to bowel troubles, diarrhoea and other germ diseases that are so common and dangerous in the summer months.

A Mi-o-na tablet taken before each meal will give such health and strength to the weakest stomach that the whole system will become strong and well, and so clean and sweet that there will be no chance for disease germs to become active. Mi-o-na acts directly upon the whole digestive system, soothing and healing the inflamed stomach lining, strengthening the nerves of the solar plexus, and building up good flesh, firm muscle and perfect health.

A great many people imagine that their headaches, dizziness, heartburn, or general despondency and weakness is a sign of fatal illness, when the whole trouble is the direct result of a weak stomach and imperfect digestion. A 50c box of Mi-o-na tablets will show by the great gain in health that the stomach is the cause of the poor health, and that Mi-o-na is the only remedy that will drive out all weakness, debility and disease.

Mi-o-na is so nearly infallible in curing the diseases resulting from a weakened stomach, excepting cancer of the stomach, that F. B. Johnson & Co. guarantee to refund the money should his remedy not give perfect satisfaction.

CONSIDER THIS OUTING

To Famous Seashore Resorts, in Planning Your Vacation.

By far the most attractive trip for health and pleasure the coming vacation season is that offered by the Seashore excursion Thursday, August 17th, over Pennsylvania Lines to Atlantic City, Cape May and seven other famous summer havens on the Atlantic Coast.

The fast through trains over Pennsylvania Lines take passengers in a few hours out of the heat and humidity of summer to the cool breezes of old ocean. This Mid August excursion occurs in the season for rest when it is most convenient to leave business. Excursionists have the added pleasure of seeing Atlantic City when it is in full tide of the fashionable season. The greatest representative gatherings ever known at any resort are seen at Atlantic city. As many as 50,000 people at one time promenade the famous board walk. The fashionable bathing hours present in unparalleled scene—fully 100,000 bathers in the sea and on the beach.

The healthful effect of the seashore trip is due to salt and pine air. So beneficial has it proved that physicians send their patients there to get the benefit of breathing the pure ocean air.

Special low fares will be in effect for this Seashore excursion. Full information will be freely given by local ticket agents of the Pennsylvania Lines.
